

## EGG WASH

CHLORINATED, POWDERED EGG CLEANER

**EGG WASH** is specially designed for industrial use, and is a unique chlorinated powder blend especially formulated for the cleaning of eggs in agricultural buildings such as hatcheries.

### FEATURES AND BENEFITS

- Contains organic chlorine
- Moderate alkalinity
- High performance product

### DIRECTION FOR USE

|                          |  |
|--------------------------|--|
| <b>Use procedure</b>     | Apply by spray or immersion. Allow to dwell then rinse with potable water. |
| <b>Concentration</b>     | Between 0.5% and 2% (5 gr to 20 gr/litre of water).                        |
| <b>Temperature</b>       | Between 35°C and 45°C (97 to 113°F).                                       |
| <b>Mechanical action</b> | If needed.   |
| <b>Rinsing</b>           | Rinse with potable water.  |

# EGG WASH

CHLORINATED, POWDERED EGG CLEANER

## PHYSICAL PROPERTIES

|                                     |                                    |
|-------------------------------------|------------------------------------|
| Appearance                          | White, free flowing powder         |
| Odour                               | Faint chlorine                     |
| Specific gravity @ 20°C             | Not applicable                     |
| Viscosity                           | Not applicable                     |
| pH                                  | Not applicable                     |
| Flash point (TCC)                   | None                               |
| Water solubility                    | 40%                                |
| Auto ignition temperature           | None                               |
| Chlorine                            | Organic                            |
| Boiling point                       | Not applicable                     |
| Freezing point                      | Not available                      |
| Foaming tendency                    | Low                                |
| Concentration monitoring techniques | Electrical conductivity, titration |
| Rinsing                             | Excellent                          |

## INCOMPATIBILITY

Acids

## WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

## AVAILABLE SIZES

|   |   |   |  |
|---|---|---|--|
|  |  |  |  |
| <b>10Kg</b>   | <b>20Kg</b>   | <b>205Kg</b>  |  |

## IMPORTANT

Before using **EGG WASH**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Eye contact
