

## FOAM-IT

### SANITIZER FOR FOAMING BOOT DIP

**FOAM-IT** is a quaternary ammonium sanitizer with strong foaming power, especially formulated for foam carpet production, used to protect access to agri-food and food and beverage processing areas.

**FOAM-IT** replaces boot dip basins and screens.

### FEATURES AND BENEFITS

- Abundant foam
- Low viscosity
- Chemically stable
- Ensures concentration of sanitizing solution since it remains active as long as the foam is visible
- Easy to measure out
- Pleasant to use since it is odourless and colorless
- Non-corrosive

### DIRECTION FOR USE

|                         |  |
|-------------------------|--|
| Equipment to be treated | Work boots entering food processing zones.   |
| Use procedure           | Apply with automatic foaming production system or manually. Coat the surface in front of access doors or appropriate equipment to determinate area with a thick layer of <b>FOAM-IT</b> solution. Repeat as often as needed, to maintain the foam carpet at all times. |
| Concentration           | From 1.0 to 4.0% v/v.  |
| Temperature             | Not applicable.  |
| Mechanical action       | None.  |
| Rinsing                 | None.  |
| Reuse/recycling         | No.  |

# FOAM-IT<sup>®</sup> SANITIZER FOR FOAMING BOOT DIP

## PHYSICAL PROPERTIES

|                                     |                         |
|-------------------------------------|-------------------------|
| Appearance                          | Clear, colorless liquid |
| Odour                               | Faint detergent         |
| Specific gravity @ 20°C             | 1.0                     |
| Viscosity                           | < 10 cps                |
| pH                                  | 9                       |
| Flash point (TCC)                   | None                    |
| Water solubility                    | Complete                |
| Auto ignition temperature           | None                    |
| Chlorine                            | None                    |
| Boiling point                       | 100°C                   |
| Freezing point                      | Not available           |
| Foaming tendency                    | High                    |
| Concentration monitoring techniques | Titration               |
| Rinsing                             | Excellent               |

## INCOMPATIBILITY

Strong oxidizers

## WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

## AVAILABLE SIZES

|  |   |   |   |
|--|---|---|---|
|  |  |  |  |
|  | 20L   | 205L  | 1000L   |

## IMPORTANT

Before using **FOAM-IT**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

### Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

### Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

## PERSONAL PROTECTION
