

HYDRO TREAT LIQUID

LOW FOAMING WATER CONDITIONER

HYDRO TREAT LIQUID is an aqueous water conditioner designed to control corrosion, inhibit scale deposition and prevent fouling in one dose treatments. It is typically used in oilfield boiler systems where variable water quality is of concern.

FEATURES & BENEFITS

- Powerful alkali with active oxygen control
- Low foaming
- Reduces corrosion and controls solids deposition such as scaling and boiler carryover
- Convenient test kit available

DIRECTIONS FOR USE

Typical applications

Boilers.

Typical use directions

For soft water sources, use a 0.05% concentration or approximately 20 litres per 40,000 litres or 40 m³.

For hard water sources, use a 0.075 to 0.1% concentration or approximately 20 litres per 20,000 - 27,000 litres or 20 – 27 m³.

HYDRO TREAT LIQUID

LOW FOAMING WATER CONDITIONER

PHYSICAL PROPERTIES

Appearance Brown liquid

Odour Odorless

Specific gravity @ 20 °C 1,06

Viscosity Basse

pH > 13.0

Flash point (TCC) None

Water solubility Complete

Boiling point Approx. 100°C (212°F)

Freezing point Approx. -15°C (5°F)

Foaming tendency Low

Rinsing Excellent

INCOMPATIBILITY

Strong oxidizing or reducing materials, acids, glycols, amphoteric or light metals

WAREHOUSING PRECAUTIONS

Keep containers tightly closed away from incompatible materials
Store at >16°C

AVAILABLE SIZES

20L

205L

IMPORTANT

Before using **HYDRO TREAT LIQUID**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Skin contact

Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

Inhalation

Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

Ingestion

Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

PERSONAL PROTECTION
