

### AGRICULTURE AND HORTICULTURE INDUSTRY

**PREMISE DEGREASER PLUS RTU** is an industrial strength, ready to use, foaming cleaner with added chlorine. It penetrates and lifts a wide variety of soils including oils, fats, grease, proteins, and animal and vegetable deposit. It is recommended in the Clubroot deactivation treatment.

### FEATURES and BENEFITS

- Contains chlorine in the form of sodium hypochlorite
- Moderate alkalinity
- High foaming
- Low viscosity
- Solvent-free
- Safe on soft metals and concrete
- High performance product
- User friendly
- Designed to be used in cleaning applications requiring >90% rates of **Clubroot resting spore mortality\***.

*\* Verified by the Crop Diversification Centre of Alberta Agriculture and Forestry using Evans Blue Stain method.*

### DIRECTIONS FOR USE

#### Use procedure

**Step 1: High Pressure Rinse.** Use a pressure washer at 2,000 –3,000 psi on all areas where soil can accumulate. Turbo nozzles are generally more effective at removing soil than regular nozzles.

**Step 3: Final Treatment.** Apply undiluted with a sprayer to all areas. Treated areas should remain wet with the product for 15–20 minutes.

Applications will vary according to location, installations, amount of soil, etc. Consult your **West Penetone** representative for methods best suited for your environment.

#### Concentration

Use as is, no dilution required.

## CHLORINATED DEGREASER

### PHYSICAL PROPERTIES

|                                     |                         |
|-------------------------------------|-------------------------|
| Appearance                          | Light green liquid      |
| Odour                               | Faint Chlorine          |
| Specific gravity @ 20°C             | 1.02                    |
| Viscosity                           | <10 cps                 |
| pH                                  | 13                      |
| Flash point (TCC)                   | None                    |
| Phosphorus                          | Yes                     |
| Water solubility                    | Complete                |
| Auto ignition temperature           | None                    |
| Chlorine                            | Hypochlorite            |
| Boiling point                       | 100°C                   |
| Foaming tendency                    | High                    |
| Concentration monitoring techniques | Conductivity, titration |
| Rinsing                             | Excellent               |

### INCOMPATIBILITY

Acids

### WAREHOUSING PRECAUTIONS

Avoid freezing  
Store away from acids

### FIRST AID MEASURES

#### EYE CONTACT

Wash with plenty of water for 15 minutes.  
Consult physician.

#### SKIN CONTACT

Wash with plenty of water for 15 minutes.  
Consult physician if irritation develops  
or persists.

#### INHALATION

Give fresh air

#### INGESTION

Do not induce vomiting. Drink plenty of water  
and contact physician.
