Specialty cleaning and sanitation chemicals manufacturer

Product Summary

AGRICULTURAL INDUSTRY - 2017-2018

CLEANERS - DEGREASERS

ADHERE CPM

ADHERE CPM is a unique chlorinated liquid alkaline product which forms a gel when diluted in cold water. The gel permits the solution to adhere strongly to all surfaces to which it is applied.

Sizes	Product Code
4 X 4 Litres	190626
20 Litres	190623
205 Litres	190614

ADHERE FO

ADHERE FO is a unique liquid, non-chlorinated alkaline product which forms a gel when diluted in water. Safe on aluminum.

Sizes	Product Code
20 Litres	190123
205 Litres	190114

FOAM-EZE

FOAM-EZE is a high foaming alkaline, non-chlorinated cleaner designed to dislodge food deposits on surfaces.

Sizes	Product Code
4 X 4 Litres	189526
20 Litres	189523
205 Litres	189514

PREMISE HYPOX

PREMISE HYPOX is an industrial strength, highly concentrated, foaming cleaner with stabilized hydrogen peroxide.

Sizes	Product Code
20 Litres	850323
205 Litres	850314

DISINFECTANTS - SANITIZERS

BIOXY ENVIRO - DIN 02431734

Powdered disinfectant that generates peracetic acid when mixed with water. Unique and non-corrosive product which pH 9 offers several advantages over conventional quaternary and chlorine.

Sizes	Product Code
4 Kilos	176776
20 Kilos	176764

GLUQUAT 2 - DIN 02350009

GLUQUAT 2 is a high quality quaternary ammonium based (20%) disinfectant used for premises, livestock trucks and trailers and equipment.

Sizes	Product Code
4 X 4 Litres	111626
20 Litres	111623
205 Litres	111614

GLUQUAT 300 - DIN 02449234

GLUQUAT 300 is a non-corrosive glutaraldehyde (12.5%) and quaternary ammonium (6.7%) based disinfectant used for agricultural and horticultural buildings.

Sizes	Product Code
4 X 4 Litres	
20 Litres	
205 Litres	

PENQUAT FD - DIN 02318393

PENQUAT FD is a quaternary ammonium disinfectant. Safer alternative to phenolic, glutaraldehyde, and peroxide-containing products.

Sizes	Product Code
4 X 4 Litres	101726
20 Litres	101723
205 Litres	101714

BIO PRODUCTS

BIO-EZE 3 - UL-2759

BIO-EZE 3 is a new generation high foaming alkaline cleaner designed to dislodge dirt, soils, soot and food deposits from floors, walls and equipment. EcoLogo certified.

Sizes	Product Code
4 X 4 Litres	180226
20 Litres	180223
205 Litres	180214

BIO-SAN - UL-2794

BIO-SAN is an EcoLogo certified quaternary disinfectant. It has a neutral pH and is highly biodegradable and 100% soluble in water.

Sizes	Product Code
4 X 4 Litres	180826
20 Litres	180823
205 Litres	180814

WATER TREATMENT AT THE FARM

ACETIC ACID 56%

Water acidifier that helps achieve a maximum feed conversion ratio. Economical alternative to West Acid R.

Sizes	Product Code
20 Litres	112823
205 Litres	112814

DICHLOROSAN A+B

DICHLOROSAN A + B is a chlorine dioxide generating powder. DICHLOROSAN A + B is used for treatment of wells, irrigation water and drinking water.

Sizes	Product Code
500 gr.	193796
4 Kilos	193798
12 Kilos	193799

FOAMCHECK

FOAMCHECK is a non-foaming acid cleaner, specially intended to dislodge calcium deposits (milkstone, scale) in closed loop recirculating systems (C.I.P.).

Sizes	Product Code
4 X 4 Litres	730026
20 Litres	730023
205 Litres	730014

GLUQUAT 300

GLUQUAT 300 is a non-corrosive, glutaraldehyde/quaternary ammonium-based disinfectant used for disinfection of water tanks.

Sizes	Product Code
4 X 4 Litres	111926
20 Litres	111923
205 Litres	111914

HYPER SAN

Peroxyacetic acid based sanitizer. This non-foaming product offers many advantages over conventional quats and chlorine, including no cell resistance build-up.

Sizes	Product Code
10 Litres	459131
20 Litres	459123
205 Litres	459114

WEST ACID R - Feed Act Registration Number: 982969

Acidifier specially formulated to provide a maximum rate of feed conversion. A combination of 3 acids helps provide the appropriate pH for optimal animal health.

Sizes	Product Code
20 Litres	112623
55 Litres	112620
205 Litres	112614

PREMISE ACID

PREMISE ACID is a low-foaming, highly concentrated acid cleaner, specially intended to remove mineral deposits in drinking water system in agricultural premises.

Sizes	Product Code
4 X 4 Litres	850526
20 Litres	850523
205 Litres	850514

QUADRACID

QUADRACID is an acidifier for water pH control in agricultural premises. QUADRACID contains one inorganic acid and three organic acids.

Sizes	Product Code
20 Litres	112723
205 Litres	112714

ENZYMATIC PRODUCTS

LISYME 40

LISYME 40 is a blend of enzymes and non pathogenic bacteria formulated for treatment, start-up and maintenance of manure pits.

Sizes	Product Code
25 Litres	790679

LITYME

LITYME is a blend of enzymes, non pathogenic bacteria and algae specially formulated to maximize litter use. Lityme will ensure optimal litter hygiene.

Sizes	Product Code
10 Kilos	790579
