

AGRICULTURE AND HORTICULTURE INDUSTRY

Feeds Act Registration
Number 982969

WEST ACID "R" is an acidifier for drinking water in agricultural premises. It is for cattle, swine and poultry. **WEST ACID "R"** contains one inorganic acid and two organic acids. It is specially formulated for the best feed conversion ratio. **WEST ACID "R"** provide the appropriate pH for optimal animal health.

FEATURES and BENEFITS

- Three acids: Phosphoric acid, lactic acid and formic acid
- High performance product
- Non-foaming
- Highly concentrated
- Animal health optimizer
- Better feed conversion

DIRECTIONS FOR USE

Use procedure	Clean out water pipe with PREMISE ACID before applying WEST ACID "R"
Concentration	Stock solution: Between 1% to 5% (10 ml to 50 ml/litre of water) Working solution: With a metering pump use 1 part of stock solution with 100 part of drinking water. (1:100)
Temperature	Avoid extreme temperatures

WEST ACID "R"

LIQUID ACIDIFIER FOR DRINKING WATER FOR ANIMAL PRODUCTION

PHYSICAL PROPERTIES

Appearance	Clear red liquid
Odour	Acid
Specific gravity @ 20°C	1.28
Viscosity	Low
pH (1% sol)	1.0
Flash point (TCC)	None
Phosphorus	30% - 50%
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	Approx. 100°C
Freezing point	N/A
Foaming tendency	Low
Concentration monitoring techniques	Electrical conductivity, titration
Rinsing	Excellent

INCOMPATIBILITY

Chlorinated and alkaline products.

WAREHOUSING PRECAUTIONS

Store away from chlorinated and alkaline products at 5°C minimum.

FIRST AID MEASURES

EYE CONTACT

Wash with plenty of water for 15 minutes. Consult physician.

SKIN CONTACT

Wash with plenty of water for 15 minutes. Consult physician if irritation develops or persists.

INHALATION

Give fresh air

INGESTION

Do not induce vomiting. Drink plenty of water and contact physician.
