

GENERAL USE PRODUCTS

WESTOP 480 is a water based corrosion inhibitor. Protects iron, steel and other ferrous alloys during immersion and in open air, even when the atmosphere is humid. Its high concentration allows **WESTOP 480** to be effective even when highly diluted.

FEATURES AND BENEFITS

- Aqueous solution
- Highly active ingredients
- Double action: cathodic and film forming protection
- Remains stable at high temperature
- Effective when parts are immersed or in open air
- Prevent rust indefinitely in water immersion
- Protects against rust long after immersion or spray
- Odourless
- Non toxic and non irritant
- Cost efficient

DIRECTIONS FOR USE

Use procedure	Add WESTOP 480 to rinsing water (rinsing by immersion or spray). Add WESTOP 480 to water circulating in cooling systems or tank. For non-submerged parts, simply spray WESTOP 480 on surface to protect. Avoid rinsing.
Concentration	12 to 25 ml per litre of water.
Use temperature	Between 50°C and 70°C
Rinsing	Do not rinse.
Reuse/recycling	In a tank, cooling or rinsing system.

WESTOP 480

CORROSION INHIBITOR

PHYSICAL PROPERTIES

Appearance	Green liquid
Odour	None
Specific Gravity @ 20°C	1.07
Viscosity	< 10 cps
pH	10
Flash Point (TCC)	None
Boiling Point	100°C
Freezing Point	Not available
Auto Ignition Temperature	None
Foaming Tendency	Moderate
Concentration Monitoring Techniques	Refractive index
Rinsability	Not applicable
Water Solubility	Complete

INCOMPATIBILITY

Acids

WAREHOUSING PRECAUTIONS

Store away from reactive substances

FIRST AID MEASURES

EYE CONTACT

Wash with plenty of water for 15 minutes. Consult physician if irritation develops or persists.

SKIN CONTACT

Wash with soap and water. Consult physician if irritation develops or persists.

INHALATION

No object

INGESTION

Do not induce vomiting. Drink plenty of water and consult physician immediately.
