Products permitted on surfaces that come in contact with organic products for which a removal event (e.g., rinsing with water, purging a system with organic product) is mandatory before an organic production runs, batches or loads.

This company deserves the right to use the mention:
"Approved for organic processing by OCQV"

Attested in agreement with the OCQV private standard
and compliant with the *Permitted Substances List (CAN/CGSB 32.311)*.

This attestation is valid only within the scope of the Quebec Organic Food Control System.

"This attestation is valid for all products mentioned unless is replaced by a new attestation or temporary or permanently cancelled, following a reevaluation carried out by the certification body regarding the compliance of its operations, or because of the interruption or the voluntary surrendering of its certification by the business. The attestation body should be contacted in order to ensure that it is the most recent attestation document and that it has not since been cancelled following the withdrawal or the suspension of the attestation granted to the abovementioned business."

Delivery date: **November 21, 2017**
Valid until: **November 21, 2018**

Initial attestation: **February 1st, 2017**
