

## FLEXOGRAPHY (water-based inks)

Products	Description	Features & Benefits
<b>CELL-KLEEN HD2</b> Gel cleaner	<b>CELL-KLEEN HD2</b> is a viscous cleaner designed to deep clean water and solvent-based inks from anilox rolls. Because of its thixotropic properties, it can be applied either on press or off and will allow for increased dwell time on the roll without dripping down onto other sensitive press components. <b>CELL-KLEEN HD2</b> will penetrate deeply into the cells and clean them like never before. By using it to routinely clean anilox rolls, the frequency with which rolls need to be sent out for reconditioning will be greatly reduced and print quality will be greatly improved.	<ul style="list-style-type: none"> <li>• Clings to vertical surfaces</li> <li>• Effectively removes camouflage</li> <li>• Economical: 4L cleans up to 10 rolls</li> <li>• Cost and labour reductions</li> <li>• Extended roll life</li> </ul>
<b>GRAFIKLEEN® 212L</b> Moderate alkaline cleaner	<b>GRAFIKLEEN 212L</b> is a concentrated, non-flammable, low foaming liquid alkaline detergent formulated for fast removal of water-based inks, grease, oil and grime in the paper converting and flexographic printing industries. It is recommended for use on flexographic anilox rolls, top print and bottom press rolls, and for circulation through anilox systems (roll, tray, ink pot and ink lines).	<ul style="list-style-type: none"> <li>• Ideal for diverse applications</li> <li>• Safer than conventional solvents</li> <li>• No fire or flash point</li> <li>• Reduces cleanup time</li> <li>• Low foaming</li> </ul>
<b>WESTKLEEN 4115</b> Alkaline cleaner	<b>WESTKLEEN 4115</b> is a concentrated, non-flammable, low foaming liquid alkaline detergent formulated for fast removal of water-based inks, grease, oil and grime in the paper converting and flexographic printing industries. It is recommended for use on flexographic anilox rolls, top print and bottom press rolls, and for circulation through anilox systems (roll, tray, ink pot and ink lines).	<ul style="list-style-type: none"> <li>• Biodegradable</li> <li>• Free rinsing</li> <li>• Extremely cost effective</li> <li>• Reduces cleanup time</li> </ul>

## FLEXOGRAPHY and OFFSET (U.V. Ink)

Products	Description	Features & Benefits
<b>GRAFIKLEEN® R303</b> U.V. ink solvent	Uniquely formulated to remove u.v. inks and coatings from flexographic, lithographic and dry offset presses. <b>GRAFIKLEEN R303</b> is as effective as mineral spirits, naphtha, and alcohol in the cleaning of u.v. inks, uncured varnishes, lacquers and adhesives and is almost odorless.	<ul style="list-style-type: none"> <li>• Very mild odor</li> <li>• High dissolution capacity for u.v. inks</li> <li>• No oily residue</li> </ul>
<b>GRAFIKLEEN® L404C</b> U.V. ink solvent	<b>GRAFIKLEEN L404C</b> is a state of the art blanket and roller wash that helps meet many current environmental regulations. It is uniquely formulated to remove u.v. inks and coatings from flexographic, lithographic and dry offset presses. It is as effective as mineral spirits, naphtha, and alcohol in the cleaning of u.v. inks, uncured varnishes, lacquers and adhesives.	<ul style="list-style-type: none"> <li>• Safer for employees to use</li> <li>• Highly effective</li> <li>• Fast evaporating</li> <li>• Multiple uses</li> </ul>

## OFFSET (Solvent-based ink)

Products	Description	Features & Benefits
<b>GRAFIKLEEN® R504WD-ECO</b> Multi purpose solvent	<b>GRAFIKLEEN R504 WD-ECO</b> is a state of the art roller and blanket wash. It is also an excellent adhesive remover. The solvent present in <b>GRAFIKLEEN R504 WD-ECO</b> is as effective as xylene, mineral spirits, naphtha and alcohols in the cleaning of solvent soluble inks and coatings.	<ul style="list-style-type: none"> <li>• Contains no CFCs</li> <li>• Fast evaporating</li> <li>• Emulsifies in water</li> <li>• Mild odor</li> </ul>

## SPECIALIZED PRODUCTS

Products	Description	Features & Benefits
<b>GRAFIKLEEN® R325</b> Ink, coating and adhesive remover	<b>GRAFIKLEEN R325</b> is a remover for inks, coatings and adhesives used in the printing industry. Its high flash point of represents a significant reduction in the fire and explosion hazards that typically accompany this type of product. It contains no CFCs or chlorinated solvents that could damage the ozone layer.	<ul style="list-style-type: none"> <li>• High flash point (52°C TCC)</li> <li>• Highly effective at removing stubborn build-ups</li> <li>• Safer for employees to use</li> </ul>
<b>GRAFIKLEEN® R845</b> Ink and coating remover	<b>GRAFIKLEEN R845</b> is an ink and coating remover with a higher flash point than traditional ink and coating removers. It is also excellent for removing adhesives. <b>GRAFIKLEEN R845</b> is effective in the cleaning of solvent soluble inks and coatings. The high flash point of <b>GRAFIKLEEN R845</b> represents a significant reduction in the fire and explosion hazards.	<ul style="list-style-type: none"> <li>• High flash point (62°C TCC)</li> <li>• Contains no CFCs</li> <li>• Multiples uses and fast cleaning</li> <li>• Sécuritaire pour les employés</li> </ul>

## More than 140 YEARS of service and innovation

A world leader in the creation of environmentally friendly cleaning products, West Penetone has earned the respect of many industrial sectors for its innovations, expertise and ability to solve the most difficult problems, regardless of the situation.

West Penetone products are used in such varied fields as the food, pulp and paper, petrochemical, transportation, printing, supermarkets and mining industries as well as in aerospace and military.

With its specific challenges and requirements, the printing sector requires special attention. Our extensive experience of this environment has earned us an enviable reputation within the industry.
