

## AccuBERRY

### ALKALINE DETERGENT SOLUTION

**AccuBERRY** is a phosphate-free cleaner and degreaser specifically designed for vehicle presoak cycles in both wand wash and touchless automatic car wash systems. This formulation combines the alkalinity of sodium metasilicate with an advanced surfactant package to rapidly penetrate and loosen road film, greasy soils and bug residues from vehicle surfaces.

Despite its high alkalinity, **AccuBERRY** is safe for use on painted surfaces, alloy trims, and glass when properly diluted.

**AccuBERRY** produces a pleasant berry fragrance and a thick, red foam, when applied through a foaming system, to enhance the overall customer experience, in both wand wash and touchless environments.

### FEATURES & BENEFITS

- High alkalinity formula
- High foaming and easy rinsing product
- Safe for all types of pressure washers and foam applicators
- Phosphate free
- Effective presoak in car and truck wash applications

### DIRECTIONS FOR USE

- |                        |  |
|------------------------|--|
| <b>Use procedure</b>   | Apply the solution to the vehicle surface area using a low-pressure spray or foam applicator. Allow sufficient time to loosen tough soils, before proceeding to the next stage of the vehicle wash process. To prevent damage, do not allow <b>AccuBERRY</b> solution to dry on glass or painted surfaces. Do not apply <b>AccuBERRY</b> full strength or to hot surfaces. |
| <b>Concentration</b>   | 20:1 to 50:1 for low pressure spray or foaming presoak applications.   |
| <b>Use temperature</b> | Can be used in both hot and cold-water cleaning applications. For best results, hot water (50°C – 60°C / 120°F – 140°F) is recommended.  |
| <b>Rinsing</b>         | Rinse with high pressure hot water or proceed to the next step in the wash cycle.  |

# ACCUBERRY ALKALINE DETERGENT SOLUTION

## PHYSICAL PROPERTIES

Appearance	Clear, red liquid
Odour	Berry
Specific gravity @ 20°C	1.046-1.066
Viscosity	Not available
pH	11.5– 12.5 (10% v/v solution in water)
Flash point (TCC)	None
Water solubility	Complete
Boiling point	Approx. 100°C (212°F)
Freezing point	Approx. 0°C (32°F)
Foaming tendency	High
Rinsing	Excellent
Concentration monitoring techniques	Electrical conductivity, titration

## INCOMPATIBILITY

Strong oxidizing agents, acids

## WAREHOUSING PRECAUTIONS

Store away from incompatible materials.  
Keep from freezing.

## AVAILABLE SIZES

			
<b>20L</b>	<b>115L</b>	<b>205L</b>	

## IMPORTANT

Before using **ACCUBERRY**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Ingestion

Do not induce vomiting unless directed by medical personnel. Rinse mouth with water and drink 1 or 2 glasses of water and call a POISON CENTER or doctor/physician immediately.

### Skin contact

Take off contaminated clothing and rinse skin with plenty of water. Get medical advice/attention. Wash any contaminated clothing before re-use.

### Inhalation

If difficulties occur after mist/vapors/spray has been inhaled, remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician.

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a doctor/physician immediately.
