

AccuWash 35

POWDERED VEHICLE WASH DETERGENT

AccuWash 35 is a high-performance pressure washer detergent, formulated with 100% active ingredients for maximum efficiency. This specially formulated detergent excels in heavy-duty truck wash applications while remaining gentle enough for the most delicate automobile finishes.

AccuWash 35 delivers excellent cleaning performance in hard or soft water conditions, but operators using water-softening systems can use lower concentrations of detergent while maintaining effective road film removal.

FEATURES & BENEFITS

- 100% Every granule packs a punch, ensuring powerful cleaning action
- The powder quickly dissolves in both hot and cold water, forming solutions up to 10% strength with ease
- Engineered to tackle tough road film, leaving surfaces spotless
- Safe and suitable for all types of pressure washers

DIRECTIONS FOR USE

- | | |
|------------------------|--|
| Use procedure | AccuWash 35 is designed for versatility, functioning as an effective presoak or high-pressure detergent in wand wash applications for both cars and trucks, across varying water conditions. |
| Concentration | For high-pressure spray applications, mix 1 to 3 grams per liter, achieving a 0.1% - 0.3% w/v concentration. A 10% stock solution of AccuWash 35 can be prepared and diluted on-demand using a hydrominder. |
| Use temperature | For superior cleaning results, use AccuWash 35 with hot water temperatures ranging from 50°C to 60°C (120°F to 140°F) and gun pressure between 1000 to 1200 PSI. Adjust product concentration accordingly for lower temperatures and pressures to maintain effective road film removal. |
| Rinsing | For best results, a high-pressure hot water rinse is recommended to ensure thorough cleaning. |

ACCUWASH 35 POWDERED VEHICLE WASH DETERGENT

PHYSICAL PROPERTIES

Appearance	White powder
Odour	Odorless
Specific gravity @ 20°C	Not applicable
Viscosity	Not applicable
pH	11.5 – 12.5 (1% w/v solution in water)
Flash point (TCC)	None
Water solubility	Complete
Boiling point	Not applicable
Freezing point	Not applicable
Foaming tendency	High
Rinsing	Excellent
Concentration monitoring techniques	Electrical conductivity, titration

INCOMPATIBILITY

Strong oxidizing agents, acids

WAREHOUSING PRECAUTIONS

Store away from incompatible materials

AVAILABLE SIZES

			
16Kg	45Kg	90Kg	160Kg

IMPORTANT

Before using **ACCUWASH 35** always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Ingestion

Do not induce vomiting unless directed by medical personnel. Rinse mouth with water and drink 1 or 2 glasses of water and call a POISON CENTER or doctor/physician immediately.

Skin contact

Take off contaminated clothing and rinse skin with plenty of water. Get medical advice/attention. Wash any contaminated clothing before re-use.

Inhalation

If difficulties occur after dust has been inhaled, remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician.

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a POISON CENTER or doctor/physician immediately.
