

AccuWash SPECIAL

POWDER PRESSURE WASHER DETERGENT

AccuWash SPECIAL is a high-performance pressure washer detergent formulated with a high concentration of active water conditioners and cleaning agents. **AccuWash SPECIAL** is designed to tackle grit and road grime in heavy-duty truck wash applications, while being safe to use on all common automobile paint and coatings.

The water conditioners in **AccuWash SPECIAL** makes it ideal for use in areas with hard water. However, carwash operators that have installed water-softener equipment will achieve even better performance at lower product concentrations.

FEATURES & BENEFITS

- Excellent on road film, bugs, windshield eyebrows, and road salts
- Highly active formula
- Safe for all types of pressure washers
- Mild citrus fragrance for pleasant user experience

DIRECTIONS FOR USE

- | | |
|------------------------|---|
| Use procedure | Use AccuWash SPECIAL as a presoak or high-pressure detergent in wand wash or mobile pressure washing and foaming applications. |
| Concentration | Use 1 to 2 grams per liter of water (1 to 2 pounds per 100 gallons) for wand wash and mobile pressure washing applications, to achieve a concentration 0.1% - 0.2%.

For greatest convenience, make a stock solution containing 10% AccuWash SPECIAL in water, then dilute on demand to final concentration. |
| Use temperature | Can be used in both hot and cold-water cleaning applications. For best results, hot water (50°C – 60°C / 120°F – 140°F) and gun pressure of 100 to 1200 PSI is recommended. Lower temperatures and pressure will require a higher product concentration for efficient road film removal. |
| Rinsing | Rinse with high-pressure hot water. |

ACCUWASH SPECIAL POWDER PRESSURE WASHER DETERGENT

PHYSICAL PROPERTIES

Appearance	White powder
Odour	Mild citrus
Specific gravity @ 20°C	Not applicable
Viscosity	Not applicable
pH	11.0 – 12.0 (1% w/v solution in water)
Flash point (TCC)	None
Water solubility	Complete
Boiling point	Not applicable
Freezing point	Not applicable
Foaming tendency	High
Rinsing	Excellent
Concentration monitoring techniques	Electrical conductivity, titration

INCOMPATIBILITY

Strong oxidizing agents, acids

WAREHOUSING PRECAUTIONS

Store away from incompatible materials

AVAILABLE SIZES

			
18Kg	45Kg	90Kg	180Kg

IMPORTANT

Before using **ACCUWASH SPECIAL** always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Ingestion

Do not induce vomiting unless directed by medical personnel. Rinse mouth with water and drink 1 or 2 glasses of water and call a POISON CENTER or doctor/physician immediately.

Skin contact

Take off contaminated clothing and rinse skin with plenty of water. Get medical advice/attention. Wash any contaminated clothing before re-use.

Inhalation

If difficulties occur after mist/vapors/spray has been inhaled, remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician.

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a doctor/physician immediately.
