

ACID WASH 201

HEAVY-DUTY ACID CLEANER

ACID WASH 201 is a heavy-duty, inhibited acid cleaner designed for cleaning and brightening aluminum as well as for removing tough oxidation and scale build-up from various metals.

ACID WASH 201 effectively removes stubborn environmental contaminants such as brake and rail dust from rims, side rails, paint and other surfaces as well as dislodges tough silicate scale build-ups or clay accumulations.

FEATURES & BENEFITS

- Non-chelating blend of dilute mineral acids with added corrosion inhibitor
- Low foaming
- Contains added surfactant for uniform surface wetting
- Concentrate formula available with **ACID WASH 200**
- Very rapid action
- May be used as a “fallout” or rail dust remover for vehicles transported by train
- Effective on tough scale build-ups
- Rapid and uniform wetting properties prevents localized pitting and corrosion

DIRECTIONS FOR USE

- | | |
|----------------------------------|---|
| Use procedure | Use ACID WASH 201 as part of a low-pressure application. Most effective when used with soft water. Scour or brush stubborn deposits. |
| Concentration | For all applications, dilute at maximum of 7% v/v with water. Not recommended for use at full concentration. |
| Use temperature | Cold water is recommended. |
| Dwell time/Operation time | Allow to dwell 3 to 5 minutes before final rinsing. |
| Mechanical action | Low pressure application and rinsing recommended for removing stubborn deposits. |
| Rinsing | High pressure water. |

ACID WASH 201

HEAVY-DUTY ACID CLEANER

PHYSICAL PROPERTIES

Appearance

Clear, red liquid

Odour

Acidic

Specific gravity @ 20°C

1.040-1.050

Viscosity

Not available

pH

<1.0

Flash point (TCC)

None

Water solubility

Complete

Boiling point

Approx. 100°C (212°F)

Freezing point

Approx. -5°C (23°F)

Foaming tendency

Low

Rinsing

Excellent

Concentration monitoring techniques

Not determined

INCOMPATIBILITY

Strong or chlorinated alkali, amphoteric or light metals

WAREHOUSING PRECAUTIONS

Keep containers tightly closed away from direct sunlight in a dry, cool and well-ventilated place, away from incompatible materials.

AVAILABLE SIZES

			
20L	205L		

IMPORTANT

Before using **ACID WASH 201**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. If available, apply one or two drops of 0.5% "pontocain hydrochloride solution" followed by further rinsing. Irrigate with 1% calcium gluconate in normal saline for 1 to 2 hours to prevent or lessen possible corneal damage.

Skin contact

Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If available, immerse exposed area in a solution of 0.13% iced aqueous "zephiran chloride" or directly apply 2.5% calcium gluconate gel.

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water, milk, or milk of magnesia. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.
