

RESEARCH *and development...*

With over 100 years of manufacturing and product development experience, the West Penetone family of companies has developed and patented a number of products designed to satisfy the needs of its numerous clients throughout the world. Whatever cleaners, degreasers or decontamination products may be required, we offer a broad range of products that meet the highest standards of safety and efficacy.

Concerned as we always are about environmental impact, we have introduced a new line of "green" cleaners and degreasers as well as super concentrated formulas for a dramatic reduction of packaging.

Looking for a product to meet a specific need?
Our team of experts can develop products that will answer your requirements.

Implementation of chemical application procedures by our technical team allows you to carry out your cleaning operations while ensuring a safe environment.

Discover our Complete line of Acid Cleaners

Acid Cleaners

Products	Description	Soils to be removed	Features & Benefits
ACID WASH 100 Low foaming acid cleaner	AW 100 is a low-foaming, inhibited acid cleaner designed for safely brightening weathered aluminum surfaces by removing common environmental contaminants.	Oxides, calcium deposits, stains, discolorations, and salts.	<ul style="list-style-type: none"> • Contains added corrosion inhibitor • Contains added surfactant for uniform surface wetting • Mild odour • Safe and ready-to-use
ACID WASH 200 Heavy-duty acid cleaner	AW 200 is a concentrated acid cleaner designed for cleaning and brightening heavily weathered aluminum surfaces as well as for removing thick oxide and scale build-ups from various metals.	Oxidation and scale build-up.	<ul style="list-style-type: none"> • Very rapid action • May be used in a high pressure system • May be used as a "fallout" remover for vehicles transported by train
ACID WASH 201 Heavy-duty acid cleaner	AW 201 is a heavy-duty, low foaming inhibited acid cleaner designed for cleaning and brightening aluminum as well as for removing stubborn environmental contaminants.	Brake and rail dust, tough silicate scale build-ups or clay accumulations, prolonged oxidation build-up.	<ul style="list-style-type: none"> • Contains added corrosion inhibitor • Rapid and uniform wetting properties prevents localized pitting and corrosion • Effective on tough scale build-ups
FOAMCHEK Non-foaming acid cleaner	FOAMCHEK is a non-foaming acid cleaner, specially intended to clean closed loop recirculating systems (C.I.P.). This includes: piping, tanks that are spray cleaned pasteurizers, fermentation tanks, curding tanks, etc..	Calcium deposits (milkstone, scale, etc.)	<ul style="list-style-type: none"> • Easy to use with automatic dispensing systems • Moderate acidity • Low viscosity • Cost efficient
SCALEX 10 Scale remover	SCALEX 10 is a low-foaming, inhibited acid cleaner designed for cleaning a variety of systems and units including warewash equipment, heat exchangers, steam lines, and boiler elements.	Various forms of mineral and mill scale.	<ul style="list-style-type: none"> • Effective on tough scale build-ups • Contains added corrosion inhibitor • Low foaming • Rapid and uniform wetting properties prevents localized pitting and corrosion
TETRAGARD Concrete & scale remover	TETRAGARD is a heavy-duty acid cleaner designed for removing bulk accumulations of concrete and accretions of scale from parts, equipment, lines, fixtures, and a variety of other hard surfaces.	Concrete on trucks and equipment. Scale in boilers, steam lines and on burner coils.	<ul style="list-style-type: none"> • Moderate foaming liquid • Very rapid action • Low viscosity • High acidity
TETRAGARD ULTRA Concrete & scale remover	TETRAGARD ULTRA is a non-fuming, non-oxidizing, readily biodegradable alternative to mineral acid cleaning. It can be used in a variety of applications, including ultrasonic tanks, to remove mineral and scale deposits from various metals and plastics.	Concrete on trucks and equipment. Scale in boilers, steam lines and on burner coils.	<ul style="list-style-type: none"> • Greater than 70% biodegradation by test method OECD 301 A • Less corrosive than sulfamic, phosphoric and hydrochloric acid at the same concentration • Odorless • Non-fuming • Non-oxidizing
WEDAC Concrete & scale remover	WEDAC is a high foaming acid cleaner. It is designed to remove scale, rust, restore oxidized aluminum surfaces and prime metallic surfaces for painting.	Scale, rust and other oxidizers.	<ul style="list-style-type: none"> • Effective on many types of metals such as: copper, brass, stainless steel, soft metals, aluminum • May be used with foaming equipment • It's high viscosity allows a longer contact time • Improved paint and varnish adhesion to primed metal surfaces
