

# BERRY SHINE

## VEHICLE SPRAYWAX

**BERRY SHINE** is a concentrated spray wax drying aid with a delightful berry scent. It imparts rapid beading and sheeting action to the vehicle surface to ensure water drains swiftly, thus expediting the drying process.

**BERRY SHINE** enhances the customer experience by infusing a pleasant berry scent while imparting a lustrous sheen to the car's finish during the final step of the carwash.

The **BERRY SHINE** micro-emulsion is stable over long periods of storage, eliminating any worries about partial separation in either diluted or concentrated form.

## FEATURES & BENEFITS

- Highly concentrated formula
- Cost effective- excellent performance at high dilution
- Promotes rapid water beading to minimize drying time
- Pleasant berry fragrance
- Stable micro-emulsion ensures consistent and reliable performance

## DIRECTIONS FOR USE

- |                        |   |
|------------------------|---|
| <b>Use procedure</b>   | Apply diluted <b>BERRY SHINE</b> solution to vehicle surface immediately after the last high-pressure rinse. Ensure even coverage of all surfaces Allow dwell time of 20 – 30 seconds for wax to adhere then rinse thoroughly with deionized water to ensure a spot-free surface. |
| <b>Concentration</b>   | 500:1 to 1000:1 for touchless or wand wash applications   |
| <b>Use temperature</b> | Can be used in both hot and cold-water cleaning applications.   |
| <b>Rinsing</b>         | Rinse with low pressure spray of deionized (reverse osmosis) water.   |

## PHYSICAL PROPERTIES

|                                     |  |
|-------------------------------------|--|
| Appearance                          | Clear, yellow liquid                   |
| Odour                               | Berry                                  |
| Specific gravity @ 20°C             | 0.980 – 1.000                          |
| Viscosity                           | Not available                          |
| pH                                  | 6.5 – 7.5 (10 % v/v solution in water) |
| Flash point (TCC)                   | Not applicable                         |
| Water solubility                    | Not soluble                            |
| Boiling point                       | Approx. 100°C (212°F)                  |
| Freezing point                      | Not available                          |
| Foaming tendency                    | Emulsifies                             |
| Rinsing                             | Good                                   |
| Concentration monitoring techniques | Not determined                         |

## INCOMPATIBILITY

Strong oxidizing agents

## WAREHOUSING PRECAUTIONS

Keep in a dry, cool, and well-ventilated place, away from incompatible materials

## AVAILABLE SIZES

## IMPORTANT

Before using **BERRY SHINE** always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Ingestion

Rinse mouth. Do NOT induce vomiting. Drink one or two glasses of water or milk. Call a POISON CENTER or doctor/physician if you feel unwell.

### Skin contact

Wash with plenty of water. If skin irritation occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse.

### Inhalation

If difficulties occur after mist/vapors/spray has been inhaled, remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention immediately.
