**BIO-COMPACT R** is a ready-to-use proprietary bioformulation designed especially for deodorizing trash compactors and waste containers. The product has a dual function: - Fast acting neutralizer binds odour causing compounds preventing them from volatilizing and reaching the nose. - Billions of selectively adapted microbes consume the odour causing chemicals converting them to cellular components and harmless, odourless carbon dioxide and water.

### FEATURES and BENEFITS

- Ready-to-use
- Environmentally friendly
- Non staining
- Highly concentrated bacterial formulation
- Pleasant floral fragrance
- Accelerated enzymatic degradation allows the multiple spore blend to work faster and more effectively

### DIRECTIONS FOR USE

#### Use procedure

Trash compactors, garbage trucks or any location where waste may cause odour problems to staff, clients or local residents.

Spray a fine mist toward the compactor opening. A spraying time of 5 to 40 seconds every hour during daytime is recommended, although this may vary depending on the size of the compactor and soil load.

#### Concentration

Normally use as is. Can be diluted for applications needing greater coverage

Used in the food industry, in agricultural and horticultural premises, and for other industrial uses.
