Let's be <sup>BIO-</sup>Logic AND ECORESPONSIBLE

A products for all your needs

## Green product to deserve food indutry

Offering environmentally-friendly alternatives to traditional solutions is very much part of West Penetone’s philosophy. By upgrading conventional formulations to equally efficient ecological versions, we are convinced that we are making a real difference in the environment.

## Adopt the ecologic alternative

Equivalence chart products

Foam-Eze	Bio-Eze
West Pot & Pan	Bio-Dish
Westquat	Bio-San
West Glass Cleaner	Bio-Sparkle
Delicate Castille	Bio-Derm
Citrikleen	Enviro-Trap
Safe San HD	Bio Compact-R

## Ecological and performance

- Biodegradables in less than **28 days**  
Reduce the ecological footprint on environment
- 100% water soluble
- Pleasant odour
- Safe for the user and the environment
- Available in **4 x 4L and 20L**
- Ecologo certified since July 2008
- No phosphate or EDTA
- No corrosive

Because there IS a solution...

## BIO-Derm

CCD-104 Institutional Hand Cleaner

Gentle biodegradable hand cleanser reinforced with glycerine and concentrated emollients to prevent chapping and dryness.

- Contains high levels of skin softeners and emollients
- Creates rich abundant foam
- Pleasant floral odour

## BIO-Eze 3

CCD-146E Degreaser

New generation high foaming alkaline cleaner designed to dislodge food deposits from floors, walls and food processing equipment.

- pH 11
- No phosphates, NPEs, solvents or EDTA
- Non corrosive and non toxic
- Excellent performance

## BIO-Sparkle

CCD-146A Window & Glass Cleaner

Environmentally friendly glass cleaner designed to clean windows, scanners, mirrors, ceramic, plexiglas and polished stainless steel, leaving a streak free finish.

- Effective cleaner

In addition to offering you a green alternative to more traditional products, West Penetone has developed two biological products to complement its range. Our deodorizer for trash compactors and waste containers and our grease treatment for grease drains and traps. They are very effective at neutralizing unpleasant odours due to their unique bio-formulation that turns fumes into carbon dioxide and water.

## ENVIRO-Trap

CCD-113 Drain and/or Grease Trap Additives: Alternative

Bioformulation designed specifically to eliminate organic waste and unpleasant odours in grease traps, drain lines and sewage pits. Contains non pathogenic bacteria that digest and liquify dead organic waste. Unique bacteria convert organic matter to carbon dioxide and water.

- Significantly reduces the need for grease trap pump-outs
- Accelerated enzymatic degradation allows the multiple spore blend to work faster and more effectively.

## BIO-San

CCD-166 Disinfectant

7,5 % quat based disinfectant for use in the food processing and handling industry.

- DIN 02309920
- Neutral pH
- Highly effective on a wide variety of micro organisms such as bacteria, yeast and mold.

## BIO-Dish

CCD-146K - Dish Cleaner

High foaming dish detergent used for cleaning dishware or equipment that cannot tolerate corrosive products or where the use of personal protective equipment is not desired.

- Neutral pH
- High detergent power
- Non irritant to skin
- Easy to rinse and does not streak

## BIO Compact R

CCD-115 Odor Control Additive: Alternative

Bioformulation designed specifically for deodorizing trash compactors and waste containers. Billions of selectively adapted microbes consume the odour causing chemicals converting them to cellular components and harmless, odourless carbon dioxide and water.

- Convert organic matter into carbon dioxide and water
- Exceeds minimum bacterial count in Ecologo specifications.
