

AGRICULTURE AND HORTICULTURE INDUSTRY

Food and beverage industry accepted

EGG WASH is specially designed for industrial use, and is a unique chlorinated powder blend especially formulated for the cleaning of eggs in agricultural buildings such as hatcheries

FEATURES and BENEFITS

- Contains organic chlorine
- Moderate alkalinity
- High performance product

DIRECTIONS FOR USE

Use procedure	Apply by spray or immersion. Allow to dwell then rinse with potable water.
Concentration	Between 0.5% and 2% (5 gr to 20 gr/litre of water)
Temperature	Between 35°C and 45°C (97°F to 113°F)
Mechanical action	If needed
Rinsing	Rinse with potable water

EGG WASH

CHLORINATED POWDER EGG WASH COMPOUND

PHYSICAL PROPERTIES

Appearance	White powder
Odour	Chlorine
Specific gravity @ 20°C	N/A
Viscosity	N/A
pH (1% sol)	12.0
Flash point (TCC)	None
Phosphorus	Yes
Water solubility	30%
Auto ignition temperature	None
Chlorine	Organic chlorine
Boiling point	N/A
Freezing point	N/A
Foaming tendency	Low
Concentration monitoring techniques	Conductivity, titration
Rinsing	Excellent

INCOMPATIBILITY

Acids

WAREHOUSING PRECAUTIONS

Keep container closed when not in use.
Store in a dry area.

FIRST AID MEASURES

EYE CONTACT

Wash with plenty of water for 15 minutes. Consult physician if irritation develops or persists.

SKIN CONTACT

Wash with soap and water for 15 minutes. Consult physician if irritation develops or persists.

INHALATION

Give fresh air.

INGESTION

Do not induce vomiting. Drink plenty of water and contact physician immediately.
