

ENVIROTRAP

BIOLOGICAL GREASE TRAP ADDITIVE

ENVIRO-TRAP is a ready-to-use proprietary bioformulation designed specifically to eliminate organic waste and unpleasant odours in grease traps, drain lines and sewage pits.

ENVIRO-TRAP contains non pathogenic bacteria that digest and liquefy dead organic waste (grease, fat, food particles, blood). Unique bacteria convert organic matter to carbon dioxide and water.

ENVIRO-TRAP dramatically reduces the frequency of grease trap pump outs and blockages in lines.

FEATURES AND BENEFITS

- Ready to use
- Safe for the environment
- Non staining
- Attacks directly the source of odors
- Highly concentrated bacterial formula
- Pleasant smell
- Multiple spores mixing allows a faster and more efficient enzymatic degradation

DIRECTIONS FOR USE

Use procedure

GREASE TRAP

Can be poured manually into the trap or injected with an automatic dispensing system. Dosage may vary depending on the size of the trap and soil load. Rate for a typical grease trap is 20 doses per day at 15 ml per dose. Best results will be achieved if air is added to the trap by inserting an airline directly into the trap. If injecting with an automated system insert the tube after the "P" trap and inject product either just before the trap or directly in the grease trap.

DRAINS

Dilute product 50:50 with water. Pour diluted product at a rate of 400 ml/day directly into the drain.

NOTE: **ENVIRO-TRAP**'s efficacy can be reduced in pH conditions under 5 or over 9.8

Used in the food industry, in agricultural and horticultural premises, and for other industrial uses.

ENVIRO-TRAP BIOLOGICAL GREASE TRAP ADDITIVE

PHYSICAL PROPERTIES

Appearance	Opaque, blue-green liquid
Odour	Perfumed
Specific gravity @ 20 °C	Not available
Viscosity	Not available
pH	7
Flash point (TCC)	None
Bacterial count	> 14,5 X 10 ⁷ cfu/ml
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	100°C
Foaming tendency	Non-foaming
Concentration monitoring techniques	Not applicable
Rinsing	Not applicable

INCOMPATIBILITY

Strong oxidizers

WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

AVAILABLE SIZES

		
20L	205L	

IMPORTANT

Before using **ENVIRO-TRAP**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Contact physician if irritation persists.

Skin contact

Rinse skin with water. Wash contaminated clothing before reuse.

Inhalation

Not applicable.

Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

PERSONAL PROTECTION

WHMIS
