

## FOAMCHEK®

### LOW-FOAMING ACID CLEANER

**FOAMCHEK** is a non-foaming acid cleaner designed for use in wash-bay arches or other re-circulating systems as part of a multi-step procedure for brightening aluminum tanks and rails and reducing overall road film adhesion. It effectively wets surfaces rapidly and evenly to remove surface oxidation, road film and other deposits quickly and efficiently without localized pitting or corrosion.

**FOAMCHEK** is effective on a wide variety of surfaces including: piping, tanks that are spray cleaned, pasteurizers, fermentation tanks, curding tanks, water lines, etc.

### FEATURES & BENEFITS

- Powerful and fast acting
- Compatible with most metallic and non metallic surfaces
- Mild odour
- Low viscosity
- High acidity
- Contains added surfactant for uniform surface wetting
- Safe and cost efficient
- Effective at ambient temperatures

### DIRECTIONS FOR USE

- |                                  |   |
|----------------------------------|---|
| <b>Use procedure</b>             | Use <b>FOAMCHEK</b> as part of a multi-step low pressure spray application. Most effective when used with soft water. Scour or brush stubborn deposits. |
| <b>Concentration</b>             | For all applications, a dilution between 192:1 - 96:1 or approximately 0.5 - 1.0% v/v with water is usually sufficient to obtain desired results.       |
| <b>Use temperature</b>           | Effective in both hot and cold water.   |
| <b>Dwell time/Operation time</b> | Allow to dwell 3 to 5 minutes before final rinsing.   |
| <b>Mechanical action</b>         | High pressure rinsing recommended for removing stubborn deposits.   |
| <b>Rinsing</b>                   | For optimum results, follow with an alkaline or alkaline detergent rinse procedure prior to a high-pressure water flush.                                |

# FOAMCHEK® LOW-FOAMING ACID CLEANER

## PHYSICAL PROPERTIES

Appearance	Clear, blue liquid
Odour	Odorless
Specific gravity @ 20°C	1.27
Viscosity	<10 cps
pH	<1.0
Flash point (TCC)	None
Water solubility	Complete
Boiling point	100°C (212°F)
Freezing point	Not available
Foaming tendency	Low
Rinsing	Excellent
Concentration monitoring techniques	Electrical conductivity, titration

## INCOMPATIBILITY

Bases, bleach

## WAREHOUSING PRECAUTIONS

Keep containers tightly closed away from direct sunlight in a dry, cool and well-ventilated place, away from incompatible materials.

## AVAILABLE SIZES

4L

## IMPORTANT

Before using **FOAMCHEK**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

### Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

### Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

## PERSONAL PROTECTION

WHMIS
