**Dwell time/Operation time** Preferably 1 hour.

**Rinsing** Rinse with potable water.  
(Rinsing is not required if the residue is negligible)

# LACTOWEST 88 SANITIZER FOR RED MEAT AND POULTRY CARCASSES

## PHYSICAL PROPERTIES

Appearance	Clear, colorless liquid
Odour	Characteristic
Specific gravity @ 20°C	1.20
Viscosity	< 60 mPa.s @ 25°C
pH	< 2
Flash point (TCC)	None
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	122°C
Freezing point	Not available
Foaming tendency	Non-foaming
Concentration monitoring techniques	Electrical conductivity, titration
Rinsing	Excellent

## INCOMPATIBILITY

Oxidizers and chlorinated products

## WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

## AVAILABLE SIZES

		
<b>20L</b>	<b>205L</b>	

## IMPORTANT

Before using **LACTOWEST 88**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

### Skin contact

Rinse skin with water. Wash contaminated clothing before reuse.

### Inhalation

Not applicable.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.
