#### PED VIRUS RESISTANCE TO COLD TEMPERATURES

A major feature of this virus is its resistance to low temperature, which increases its ease of transfer via vehicles or personnel; therefore increasing the difficulties of controlling its spread even in the context of the application of hygiene and biosecurity standards.

### GLUQUAT 300 and WEST PROPYLENE GLYCOL is

the perfect blend of chemicals to disinfect your loading docks or surfaces that may freeze in winter. This solution will increase your on-farm Biosecurity.

Add clean bedding after applying the solution of desinfectant for slippery surfaces.

# The Right Chemistry FOR Livestock transportation Vehicles

- Effective disinfectants against bacteria and viruses
- On-Farm Food Safety Program
- BIOSECURITY specialists
- Research and development
- Specialized training
- Crisis management
- Cost reduction program
- Personalized service
- State-of-the-art equipment
- Range of BIO products
   Ecologo, OMRI, Québec Vrai, NSF, NPN

We back our commitment with some of the best customer service and support in the industry, including highly trained representatives and technical assistance at your facilities.

MONTREAL 10,900 Secant Street Anjou, Quebec H1J 1S5 Tel.: 514-355-4660 1.800.361.8927 EDMONTON

# BIOSECURITY

Biosecurity is a set of measures applied to prevent the onset of pathogens or to limit their transmission. This is a crucial aspect of running a farm. This is why we have set up specific programs that take current issues into account. Our cleaning procedures for premises, equipment and livestock transport trucks protect your animals and, by extension, your products.

The combination of our powerful degreasers, sanitizers and disinfectants helps leave treated surfaces free of microorganisms that cause common illnesses.

Used according to our recommendations, our products will also provide you with substantial savings thanks to their optimal concentration.

## **Cleaners/Degreasers**

| Products         | Description   | Features & Benefits  |  |  |
|------------------|---|--|--|--|
| ADHERE FO        | Unique liquid alkaline product which forms a gel when<br>diluted in water. When used as foam with appropriate<br>equipment, the solution clings to vertical surfaces for an<br>almost unlimited period of time.   | <ul> <li>Non chlorinated</li> <li>Moderate alkalinity</li> <li>Low corrosion on soft metals such as aluminum, galvanized metals, bronze, etc.</li> </ul>                     |  |  |
| BIO-EZE 3        | BIO foaming alkaline cleaner designed to be safely used on all kinds of surfaces such as vehicles, motors, tires and small parts. <b>BIO-EZE 3</b> is Ecologo certified UL-2700.  | <ul> <li>High foaming</li> <li>Highly effective</li> <li>Phosphate free</li> <li>Readily biodegradable</li> </ul>  |  |  |
| METASOL          | <b>METASOL</b> is a high performance, scrub-free, alkaline<br>cleaner and degreaser extremely versatile. It is designed to<br>remove a multitude of deposits on different surfaces such<br>as buildings and transport fleets.                           | <ul> <li>Phosphate free</li> <li>Multiple application methods</li> <li>High foaming</li> <li>Leaves a "like new" shine on metal surfaces when used as recommended</li> </ul> |  |  |
| PENBLITZ<br>228M | <b>PENBLITZ 228M</b> is a caustic-free liquid alkaline cleaner.<br><b>PENBLITZ 228M</b> is effective on a wide variety of deposits<br>and soils such as lubricants, rubber marks on shipping<br>floors, animal fat, ink, adhesives, shoe marks and wax. | <ul> <li>May be used in high pressure systems</li> <li>Safe for users and compatible with most metallic and<br/>non metallic materials</li> <li>Caustic-free</li> </ul>      |  |  |

# **Disinfectants/Sanitizers**

| Products   | Description  | Features & Benefits  |  |
|--|--|--|--|
| WEST PEROX<br>DIN 02552205   | Cleaner and disinfectant for hard surfaces ideal for effective<br>and safe disinfection of agricultural and horticultural<br>buildings. Unlike its competitors, it leaves an active<br>disinfectant film after drying.<br><sup>1</sup> Effective against pathogens at 1.56% (1:64) | <ul> <li>Contains 7.5% hydrogen peroxide</li> <li>Contains 5.76% 5<sup>th</sup> generation quaternary ammonium</li> <li>Residual effect</li> <li>Broad-spectrum activity</li> <li>Low odor</li> <li>Contains only biodegradable ingredients</li> </ul> |  |
| GLUQUAT 300<br>DIN 02449234  | <b>GLUQUAT 300</b> is a non-corrosive disinfectant used for disinfection of premises, gestation cages, farrowing cages/ rooms, livestock trucks and equipment.<br><sup>2</sup> Effective against pathogens at 0,5% (1:200)   | <ul> <li>Contains of 12,5% of glutharaldehyde and 6,7% of quaternary ammonium</li> <li>Most economical solution on the market</li> <li>May be used in spraying systems or aerial disinfection</li> <li>Long lasting effect</li> </ul>                  |  |
| PENQUAT FD<br>DIN 02350009   | <b>PENQUAT FD</b> is a quaternary ammonium disinfectant, developed for disinfecting premises, gestation cages, farrowing cages/rooms, livestock trucks, equipment and foot dip.<br><sup>3</sup> Effective against pathogens at 0.8% (1:125)  | <ul> <li>Contains 10.8% 5th generation quaternary ammonium compounds</li> <li>Effective in warm or cold water</li> <li>Safe for humans and animals at recommended dilutions</li> </ul>   |  |
| Effective against: Porcine Epidemic Diarrhea (PED) <sup>1,2</sup> , Porcine Circovirus Type 2 <sup>1,3</sup> , Porcine Respiratory & Reproductive Syndrome Virus (PRRS) <sup>1,2,3</sup> , |  |  |  |

| Acid Cleaners    |   |   |  |  |
|------------------|---|---|--|--|
| Products         | Description   | Features & Benefits   |  |  |
| ACID WASH<br>201 | ACID WASH 201 is a heavy duty, inhibited acid cleaner designed for cleaning and brightening aluminum as well as for removing tough oxidation and scale build-up from various metals.  | <ul> <li>Contains added surfactant for uniform surface wetting</li> <li>Contains added corrosion inhibitor</li> <li>Effective on tough scale build-ups</li> </ul> |  |  |
| TRAILSHINE       | <b>TRAILSHINE</b> is a concentrated acid cleaner designed for cleaning and brightening heavily weathered aluminum and polished aliminum surfaces as well as for removing thick oxide and scale build-ups from various metals. | <ul> <li>Leaves a shiny finish on aluminum, without whitening aluminum</li> <li>Biodegradable ingredients</li> <li>Pleasant odor</li> </ul>                       |  |  |
| Additives        |   |   |  |  |
| Products         | Description   | Features & Benefits   |  |  |
|                  | WEST PROPYLENE GLYCOL can be used as an antifreeze  | • User safe   |  |  |

| WEST<br>PROPYLENE<br>GLYCOL | WEST PROPYLENE GLYCOL can be used as an antifreeze<br>in agricultural, horticultural or other industries. WEST<br>PROPYLENE GLYCOL will decrease the freezing point of<br>liquid solutions. Add WEST PROPYLENE GLYCOL to<br>disinfectant, sanitizer or detergent solutions. | <ul> <li>User safe</li> <li>Non-corrosive</li> <li>Odourless</li> <li>Chemically stable</li> <li>Not affected by pH variations</li> </ul> |
