

More than 125 YEARS of service and innovation

A world leader in the creation of environmentally friendly cleaning products, West Penetone has earned the respect of many industrial sectors for its innovations, expertise and ability to solve the most difficult problems, regardless of the situation.

West Penetone products are used in such varied fields as the food, pulp and paper, petrochemical, transportation, printing, supermarkets and mining industries as well as in aerospace and military.

With its specific challenges and requirements, the food processing industry requires special attention. Our extensive experience of this environment has earned us an enviable reputation within the meat, dairy, bottling, food processing and fruit and vegetables industries.

Cleaning and Disinfecting Solutions for Microbreweries and Distilleries

Prevention is KEY to ensure maximum protection of your installations.

Technical Services

- Operations evaluation
- Analysis of specific requirements
- Equipment installation, calibration and maintenance
- Costs analysis and follow-up
- Documentation and procedures support
- Scheduled follow-up visits
- Electronic Reports

Training

- Complete customized training for each employee. (Sanitation, maintenance, supervisors / foremen and quality control)
- Our ongoing training program ensures consistent and uniform safety standards

Equipment

We offer our customers cutting edge technology with reliable, easy to use chemical metering and application equipment fully tailored to your needs, thus ensuring optimum safety and reduced costs.

Exclusive Services

- Operational audits and detailed reports
- Biofilm detection and elimination
- Enzyme solution programs upon request

Alkaline Cleaners/Degreasers

Products	Description	Features & Benefits
ADHERE CPM	ADHERE CPM is a unique chlorinated liquid alkaline product which forms a gel when diluted in water. The gel permits the solution to adhere strongly to all surfaces to which it is applied.	• Chlorinated formula • Moderate caustic alkalinity • Low viscosity • Gel formula that clings to surfaces
FOAM-EZE	FOAM-EZE is a high foaming alkaline cleaner designed for removing food deposits that cling to food processing equipment.	• High foaming • Moderate alkalinity • Water soluble
SPECIAL #11 LBW-LF	Especially designed for difficult cleaning tasks such as smoke houses, bottles, ovens, deep fryers, heating pots, ham moulds, milk pasteurizers, CIP systems, etc.	• Effective in hard water • Rapidly penetrates deposits • Sodium hypochlorite compatible

Sanitizers

Products	Description	Features & Benefits
BISAN	BISAN is a specially formulated no rinse alcohol-based sanitizer. It is ready to use with fast evaporation without living residual.	• Fast evaporation • Low viscosity • 70% alcohol solution • Leaves no residue
BISAN PLUS	BISAN PLUS is a especially formulated no rinse alcohol and quaternary ammonium-based sanitizer. It is a ready to use, fast evaporating, product which leaves a protective ammonium quaternary film. BISAN PLUS is compatible with almost any surfaces.	• Fast evaporation • Low viscosity • Quaternary ammonium leaves a 200 ppm residual film • Contains 70% alcohol
LIQUID CHLORINE	LIQUID CHLORINE is a disinfectant and high concentration chlorinated liquid sanitizer. It is authorized as a no-rinse sanitizer when the concentration of free chlorine in its solution does not exceed 200 PPM. LIQUID CHLORINE can be used by circulation in milklines and other sanitary stainless steel piping systems.	• High concentration of sodium hypochlorite • Easy to handle • Compatible with alkaline products • Non foaming
HYPER SAN	HYPER SAN is used as a rinse-free sanitizer (200 ppm) without any aftertaste. It does not affect the color or smell of the finished product.	• No cell resistance build-up • Control of a broad spectrum of microorganisms • Removes biofilms – 1.6% in 10 minutes at 800 PPM

Acid Cleaners

Products	Description	Features & Benefits
CIP ACID	CIP ACID is a highly powerful acid cleaner used for maintaining sanitary conditions in recirculating cleaning systems. It is mainly used in food processing industries such as dairy, soft drinks, breweries and fruit juice.	• Use hot or cold • High acidity • Non foaming even under high agitation

Other products

Products	Description	Features & Benefits
PURZEN	PURZEN is an instant gel hand sanitizer. Its main active ingredient is 72% v/v; 65% w/w ethanol, in a formulation that provides a rich, non-sticky, quick-drying gel.	• NPN: 80099647 • Skin emollient added • Useful in places where soap and water are not available
WESTOKLEEN RTU	WESTOKLEEN RTU is a ready-to-use, all surface cleaner that sanitizes as it cleans.	• Non Corrosive • Safe on all surfaces • Pleasant odour • Non irritant to skin
