

# NET UX

eco·flo

## FEATURES & BENEFITS

- ▶ Urea hydrochloride-based descaler with corrosion inhibitors
- ▶ Cleans older systems quickly while being less aggressive toward metals
- ▶ Safer to handle than hydrochloric acid
- ▶ Non-foaming and non-fuming

## Urea hydrochloride-based inhibited descaler

**NET UX** is an organic compound that rapidly and effectively dissolves scale and iron oxide deposits that may interfere with the proper operation of closed-loop heating or cooling systems. It contains corrosion inhibitors that make it less aggressive toward metals.

At a 5% concentration, adding 50L of **NET UX** to a 1,000 L system provides a theoretical dissolution capacity of approximately 10 kg of scale. Actual performance will depend on the nature of the deposits and contact time.

### Direction for use:

Inject the product according to the results of the pH and water alkalinity / turbidity analyses.

The dosage of **NET UX** depends on the water characteristics (hardness, conductivity, overall water quality).

# WATER TREATMENT

## NET UX

Urea hydrochloride-based inhibited descaler

Appearance	Clear, colorless liquid
Odour	Odorless
Specific gravity @ 20°C	1.24
Viscosity	< 10 cps
pH	1.5
Flash point (TCC)	None
Water solubility	Complete
Auto ignition temperature	None
Boiling point	100°C
Freezing point	Not available
Foaming tendency	Non-foaming
Concentration monitoring techniques	pH, turbidity
Rinsing	Excellent

### INCOMPATIBILITY

Bases, bleach

### WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place.

### AVAILABLE SIZES

		
25Kg	255Kg	

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

### Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

### Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

## PERSONAL PROTECTION

WHMIS

Refer to the product Safety Data Sheet (SDS) for all properties.
