

OIL KING

CITRUS-BASED VEHICLE DEGREASER

OIL KING is blend of plant-based solvents and synthetic hydrocarbons, which is designed to remove road grime, heavy oil and tar deposits from the painted surfaces of motor vehicles. **OIL KING** is an ideal alternative to traditional petroleum-derived solvent degreasers and is specifically formulated with the safety of end-users in mind.

OIL KING has a mild citrus odor that makes it more pleasant to use in the wash bay environment and has a controlled evaporation rate for prolonged cleaning action. **OIL KING** will produce fast-breaking emulsions that allow easy rinsing from vehicles, followed by rapid separation of oily contaminants from wash bay wastewater.

FEATURES & BENEFITS

- High flash point degreaser, for greater safety.
- Pleasant Odor
- VOC compliant, low-toxicity and biodegradable solvent
- Slow evaporation rate for longer contact time and deep penetrating action.
- Easily rinsed with hot or cold water.
- Produces fast-breaking emulsions for easy separation and disposal of oily waste.
- Freeze point below -20°C for year-round use

DIRECTIONS FOR USE

Use procedure

OIL KING is typically applied by low pressure spray at full strength to penetrate the tough, dried-on, oily and tarry deposits commonly encountered on the surfaces of motor vehicles operating in the oilfield service industry. Heavy deposits may require some brushing to assist removal. **OIL KING** may be diluted with hot water and used as part of a high-pressure spray cleaning procedure.

Concentration

Typically used at full strength. For light cleaning, dilute 5:1 with hot water (<80°C (176°F)).

Use temperature

OIL KING is typically applied at ambient temperature but can be diluted with hot water prior to application.

Rinsing

High pressure hot water is recommended.

OIL KING CITRUS-BASED VEHICLE DEGREASER

PHYSICAL PROPERTIES

Appearance	Clear, yellow to brown liquid
Odour	Citrus
Specific gravity @ 20°C	0.851 – 0.871
Viscosity	Not available
pH	Not applicable
Flash point (TCC)	>63°C (145°F)
Water solubility	Not soluble
Boiling point	Not available
Freezing point	Approx. -20°C (-4°F)
Foaming tendency	Non-foaming
Rinsing	Good
Concentration monitoring techniques	Not available

INCOMPATIBILITY

Strong oxidizing agents, acids

WAREHOUSING PRECAUTIONS

Keep containers tightly closed away in a dry, cool and well-ventilated place

AVAILABLE SIZES

			
20L	205L	1000L	

IMPORTANT

Before using **OIL KING** always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Ingestion

Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or doctor/physician immediately.

Skin contact

Wash with plenty of water. If skin irritation occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse.

Inhalation

If difficulties occur after mist/vapors/spray has been inhaled, remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician.

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a doctor/physician immediately.
