

OXYBRITE

OXYGEN-BASED STAIN REMOVER

OXYBRITE is an oxygen-based stain remover used to remove organic stains and protein soils safely from colored clothing, linen and work-wear while brightening fabrics.

OXYBRITE is color-safe and effective on Nomex and other fire-retardant work-wear.

FEATURES & BENEFITS

- Oxygen-based
- Safe on all colored fabrics and fire-retardant clothing

DIRECTIONS FOR USE

- Use procedure** Use **OXYBRITE** for fabric pre-soaking or add via manual addition or injection pump system directly to wash cycle. For optimum results, use in combination with West Penetone line of laundry care products.
- Concentration** Dependent on soil loading and water quality. For most applications, use at a rate of 6-10 ml per liter of wash fluid. Contact your West Penetone laundry care specialist for further information.
- Use temperature** Effective in both hot and cold water.

IMPORTANT

Before using **OXYBRITE**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Skin contact

Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse.

Inhalation

Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

Ingestion

Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or doctor/physician if you feel unwell.
