

PENBLITZ 688L

ALKALINE DEGREASER CONCENTRATE

PENBLITZ 688L is an exceptionally versatile and highly concentrated liquid alkali cleaner and degreaser designed for large volume bulk cleaning procedures and applications.

PENBLITZ 688L removes a variety of foulant in a multitude of applications including asphaltenes, iron sulfides, and sludge residuals in various vessel cleaning procedures to rust, paint and grease from parts in dip tank applications.

FEATURES & BENEFITS

- Comprehensive product design does the job of caustic soda beads, but reduces the cost of other normal cleaning additives
- Good for removing iron sulphides and asphaltenes
- Contains chelating agents, great for stripping rust
- May be used in hot dip tank applications
- Capacity for scale and corrosion control
- May be used in various vessel cleaning procedures for shutdowns or turnarounds in the oil and gas energy sector

DIRECTIONS FOR USE

Use procedure

Use **PENBLITZ 688L** alone or as part of a chemical blend in high-pressure applications or by cascade or circulation in vessel cleaning procedures. Consult with your local West Penetone sales representative for procedures best suited for your application. May also be used as an additive for dilution in dip tank applications. Not for use on aluminum or soft metals.

Dosage application

For all applications, a 10% v/v dilution of **PENBLITZ 688L** in water is recommended. May be used at higher concentrations when cleaning iron or steel surfaces.

Use temperature

60-80°C is recommended.

Dwell time/Operation time

Dependent on job, site and method of application. Retain monitoring or analysis is recommended.

PENBLITZ 688L ALKALINE DEGREASER CONCENTRATE

PHYSICAL PROPERTIES

Appearance	Viscous, colorless liquid
Odour	Odorless
Specific gravity @ 20°C	1.48
Viscosity	Not available
pH	>13.5
Flash point (TCC)	None
Water solubility	Complete
Boiling point	100°C (212°F)
Freezing point	Not available
Foaming tendency	Moderate
Rinsing	Excellent
Concentration monitoring techniques	Electrical conductivity, titration

INCOMPATIBILITY

Acids, aluminum, zinc

WAREHOUSING PRECAUTIONS

Keep containers tightly closed away from direct sunlight in a dry, cool and well-ventilated place

AVAILABLE SIZES

			
	20L	205L	1000L

IMPORTANT

Before using **PENBLITZ 688L**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

PERSONAL PROTECTION
