

## RIDSTONE

### FOAMING ACID CLEANER

**RIDSTONE** is a high foaming acid cleaner which contains mineral acids and detergents specially chosen to remove mineral deposits on surfaces.

**RIDSTONE** is highly effective in the removal of calcium and scale deposits found on equipment, particularly stainless steel.

**RIDSTONE** is also very effective in maintaining aluminum surfaces.

### FEATURES & BENEFITS

- Powerful acid
- High foaming
- Foam clings to vertical surfaces
- Mild odour
- Effectively restores oxidized aluminum surfaces
- Effectively removes rust

### DIRECTIONS FOR USE

|                                  |   |
|----------------------------------|---|
| <b>Equipment to be treated</b>   | Aluminum or stainless steel surfaces.                                     |
| <b>Soils to be removed</b>       | Oxidation deposits.   |
| <b>Use procedure</b>             | Foam <b>RIDSTONE</b> solution on the surfaces to be treated.              |
| <b>Concentration</b>             | Between 0.1% and 8% (1 ml to 80 ml / litre), according to degree of soil. |
| <b>Temperature</b>               | Warm or cold.   |
| <b>Dwell time/Operation time</b> | 2 to 5 minutes.   |
| <b>Mechanical action</b>         | Not needed for aluminum, but useful on stainless steel.                   |
| <b>Rinsing</b>                   | Rinse with cold or warm water.  |

# RIDSTONE FOAMING ACID CLEANER

## PHYSICAL PROPERTIES

|                                     |                                    |
|-------------------------------------|------------------------------------|
| Appearance                          | Clear, colorless liquid            |
| Odour                               | Acidic                             |
| Specific gravity @ 20°C             | 1.17                               |
| Viscosity                           | <10 cps                            |
| pH                                  | <1                                 |
| Flash point (TCC)                   | None                               |
| Water solubility                    | Complete                           |
| Auto ignition temperature           | None                               |
| Chlorine                            | None                               |
| Boiling point                       | 100°C                              |
| Freezing point                      | Not available                      |
| Foaming tendency                    | High                               |
| Concentration monitoring techniques | Electrical conductivity, titration |
| Rinsing                             | Excellent                          |

## INCOMPATIBILITY

Bases, organic materials  
light metals, bleach

## WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry,  
cool and well-ventilated place

## AVAILABLE SIZES

|   |   |  |

|  |  |  |
| <b>20L</b>  | <b>205L</b>   |  |

ETIMAD HALAL

## IMPORTANT

Before using **RIDSTONE**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

### Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

### Inhalation

Remove person to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.
