Method	Products	Description	Features & Benefits
SPOT CLEANING	ACCUSOLVE	<b>AccuSolve</b> is a water emulsifiable solvent designed for heavy tasks. It is designed to dissolve difficult to remove deposits, such as tar, asphalt, heavy petroleum, and carbonized hydrocarbons on surfaces.	May be rinsed with water, which is exceptional for a product of this type
	ACCUSOLVE 289	AccuSolve-289 is a high distillate grade solvent blend designed for shop or enclosed space degreasing. It provides a longer dwell time for removing stubborn foulant such as bitumen and asphaltic material from lines, vessel parts, and other refinery equipment by minimizing the evaporative loss associated with the use of xylene and toluene.	<ul> <li>Safe on all hard metal surfaces</li> <li>Disperses hydrocarbon sludge and foulant accumulation upon application and rinsing</li> <li>Forms stable emulsion when diluted 1:4 to 1:20 with water, for applications requiring moderate heat.</li> </ul>
	PENSOLV L- 945	<b>PENSOLV L-945</b> is a solvent blend that is formulated to have a closed cup flash point above 60°C, but provides the same excellent cleaning performance as a solvent with a much lower flash point.	<ul> <li>63°C flash point</li> <li>Safe on all metals</li> <li>Low vapor pressure</li> <li>Free of chlorinates</li> </ul>
BULK CLEANING	COMMANDER	<b>COMMANDER</b> is an economical solvent blend designed for continuous heavy duty manual tasks. It is ready to use for removing deposits such as tar, heavy crudes, and carbonized hydrocarbons from a variety of surfaces while employing a higher content of high distillate grade aliphatic material for longer residence time and less evaporative loss.	<ul> <li>Ready to use</li> <li>Safe on all metal surfaces</li> <li>May be used in cold dip tank or parts washer applications</li> </ul>
	ENVIROSOL	<b>ENVIROSOL</b> is a heavy duty aromatic blend designed for a variety of heavy duty applications. It removes a variety of stubborn deposits such as bitumen, asphaltenes, resins, and petroleum waxes quickly and effectively.	<ul> <li>Powerful and fast acting</li> <li>Safe on all metal surfaces</li> <li>Even higher solvency available with ENVIROSOL PLUS</li> <li>Thixotropic version available with ENVIROGEL</li> </ul>
	INNOSOL	A complete blend of biodegradable, renewable, and sustainable solvents designed for heavy duty degreasing applications. It removes stubborn deposits such as tar, bitumen, and heavy crude from a variety of surfaces as effectively as most petroleum distillate based solvent degreasers	<ul> <li>Pleasant odour</li> <li>Free of aromatic and petroleum-based solvents such as xylene, mineral spirits or naphtha</li> <li>Non-flammable</li> <li>Fast acting</li> </ul>
	OIL KING	A heavy-duty solvent degreaser designed for improve handling and expsure characteristics in bulk degreasing applications. The mild odor profile, slow evaporation rate, and high flash point ensure maximum contact time and cleaning while reducing application hazards.	<ul> <li>Blend of naturally-derived and synthetic hydrocarbon solvents</li> <li>Produces fast-breaking emulsions</li> <li>High-flash point</li> <li>Suitable for wash-bay applications</li> </ul>

# Industrial Use Solvents

Method	Products	Description	Features & Benefits
1	BIO CLEAN	An alternative to traditional petroleum solvents used in recirculating parts washing systems. Provides powerful solvency against heavy oils and greases while leaving a light residual film for inhibiting flash rusting.	<ul> <li>Fully biodegradable and non-toxic</li> <li>Mild, pleasant odour, Non-flammable/combustible,</li> <li>Low evaporation rate</li> </ul>
PARTS	PARTS TPC SOLVENT	TPC SOLVENT is a non-chlorinated, odourless highly refined petroleumbased solvent. It is specially designed to be used in immersion tanks at room temperature but is also recommended for manual and spray cleaning.  TPC SOLVENT replaces kerosene and other mineral spirits.	<ul><li>Superior heavy duty cleaner</li><li>Greater contact time on vertical surfaces</li><li>Effective at low concentrations</li></ul>
CIRCULATION CLEANING	RAMSOL BCX	<b>RAMSOL BCX</b> is a heavy duty solvent blend designed for chemical circulation procedures - the removal of asphaltenes and resins is required from lines and vessels. It can be emulsified in water to a low or high pH to customize foulant removal.	<ul> <li>Safe on all hard metal surfaces</li> <li>May be used in combination with alkali, acid, and surfactant chemical cleaning procedures</li> <li>May be used at 65°-70°C when used as part of a chemical cleaning procedure</li> </ul>

# **RESEARCH** and development...

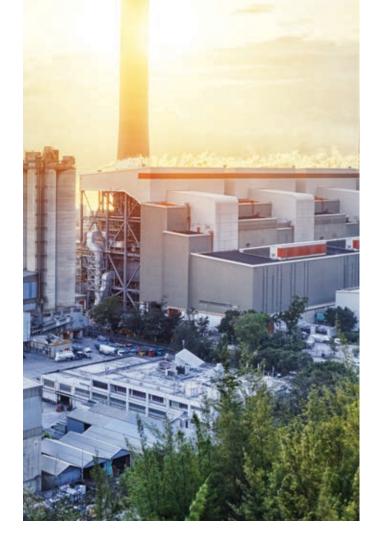

With over 140 years of manufacturing and product development experience, the West Penetone family of companies has developed and patented a number of products designed to satisfy the needs of its numerous clients throughout the world. Whatever cleaners, degreasers or decontamination products may be required, we offer a broad range of products that meet the highest standards of safety and efficacy.

Concerned as we always are about environmental impact, we have introduced a new line of "green" cleaners and degreasers as well as super concentrated formulas for a dramatic reduction of packaging.

Looking for a product to meet a specific need? Our team of experts can develop products that will answer your requirements.

Implementation of chemical application procedures by our technical team allows you to carry out your cleaning operations while ensuring a safe environment.
