

# VAP TR240

eco·flo

## FEATURES & BENEFITS

- ▶ Highly concentrated product
- ▶ Maintains condensate pH within compliant levels
- ▶ Minimal impact on water conductivity

## Concentrated neutralizing volatile amines

**VAP TR240** is a highly concentrated product containing two neutralizing volatile amines. It neutralizes carbonic acid in condensate lines and provides protection against corrosion.

### Direction for use:

Inject the product according to the results of the condensate pH analyses.

The dosage of **VAP TR240** depends on the water characteristics (hardness, conductivity, overall water quality).

## VAP TR240

Concentrated neutralizing volatile amines

Appearance	Clear, yellowish liquid
Odour	Strong amine
Specific gravity @ 20°C	0.99-1.00
Viscosity	< 10 cp @ 20°C
pH	12.5 - 13.0
Flash point (TCC)	53°C
Water solubility	Complete
Auto ignition temperature	None
Boiling point	100°C
Freezing point	-12°C
Foaming tendency	Non-foaming
Concentration monitoring techniques	Condensate pH
Rinsing	Excellent

### INCOMPATIBILITY

Acids, hypochlorites

### WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place.

### AVAILABLE SIZES

		
20Kg	205Kg	

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor or a physician.

### Skin contact

Remove, take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse.

### Inhalation

Remove person to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor or physician.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

## PERSONAL PROTECTION

WHMIS

Refer to the product Safety Data Sheet (SDS) for all properties.
