

WEST ACID R

LIQUID ACIDIFIER FOR DRINKING WATER

WEST ACID R is an acidifier for drinking water in agricultural premises. It is for cattle, swine and poultry. It contains one inorganic acid and two organic acids.

WEST ACID R provides the appropriate pH of drinking water.

Feeds Act Registration Number:
982969

FEATURES AND BENEFITS

- Three acids: Phosphoric acid, lactic acid and formic acid
- High performance product
- Non-foaming
- Highly concentrated

DIRECTION FOR USE

Use procedure	Clean out water pipe with PREMISE ACID before applying WEST ACID R .
Concentration	Stock solution: Between 1 % and 5 % (10 ml to 50 ml/litre of water) Working solution: With a metering pump use 1 part of stock solution with 100 part of drinking water (1:100).
Temperature	Avoid extreme temperatures.

WEST ACID R LIQUID ACIDIFIER FOR DRINKING WATER

PHYSICAL PROPERTIES

Appearance	Clear, red liquid
Odour	Acidic
Specific gravity @ 20°C	1.28
Viscosity	< 10 cps
pH	< 1
Flash point (TCC)	None
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	100°C
Freezing point	Not available
Foaming tendency	Non-foaming
Concentration monitoring techniques	Electrical conductivity, titration
Rinsing	Excellent

INCOMPATIBILITY

Chlorinated and alkaline materials

WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

AVAILABLE SIZES

			
20L	205L		

IMPORTANT

Before using **WEST ACID R**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).
