

WEST OVEN CLEANER

VISCOUS ALKALINE CLEANER FOR OVENS AND ROTISSERIES

WEST OVEN CLEANER is specially designed to remove incrustated greases, carbonized deposits and oil accumulated in ovens, rotisseries and other food processing equipment.

WEST OVEN CLEANER is a very powerful, fast acting product designed for use on carbonized deposits resistant to cleaning without excessive scrubbing.

FEATURES AND BENEFITS

- Viscous liquid
- High alkalinity
- Contains a high quantity of quality wetting agents
- Cold use
- Only one application is usually required to remove all deposits

DIRECTION FOR USE

Use procedure

1. Turn off the oven and leave to cool.
2. Turn the fan on.
3. Put on the protective equipment provided - apron, goggles or face shield and long gloves.
4. Make sure that the gloves are over the sleeves. Roll about 5 centimeters of the edges of the glove towards the fingers.
5. Brush the surface and remove visible residues. Pour the **WEST OVEN CLEANER** on the oven walls using the cover "flip-top" provided. Do not spray this product (For Teflon surfaces, use **WEST OVEN CLEANER** diluted equally with water).
6. Use a white brush to gently apply the cleaner on the dirty walls.
7. Let solution stand for 10 to 15 minutes.
8. Rub the surface with a brush or a soft green buffer.
9. Rinse with clear water and dry with a disposable cloth. Make sure that there are no residue of the product.
10. Wash the gloves while they are still on.
11. Wash the glasses in a **WEST POT & PAN CLEANER ULTRA** solution. Rinse with water. Hang to dry.
12. Turn off the fan.
13. To clean the chicken roast pin with carbon buildup, soak in a pure **WEST OVEN CLEANER** solution for 10 to 12 hours. Then brush and rinse well.
14. For clean or little carbon residue on chicken pins, wash every evening with **WEST OVEN CLEANER** diluted equally with water.

WEST OVEN CLEANER

VISCOUS ALKALINE CLEANER
FOR OVENS AND ROTISSERIES

PHYSICAL PROPERTIES

Appearance	Clear, amber liquid
Odour	Faint detergent
Specific gravity @ 20°C	1.18
Viscosity	20 cps
pH	> 13.5
Flash point (TCC)	None
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	100°C
Freezing point	Not available
Foaming tendency	High
Concentration monitoring techniques	Not applicable
Rinsing	Excellent

INCOMPATIBILITY

Strong acids

WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

AVAILABLE SIZES

			
12 X 946ml			

IMPORTANT

Before using **WEST OVEN CLEANER**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).
