

WEST PEROX

HIGH-EFFICIENCY DISINFECTANT/VIRUCIDE

WEST PEROX is a stabilized hydrogen peroxide and 5th generation quaternary ammonium based non-corrosive cleaner and disinfectant. Unlike its competitors, it leaves an active disinfectant film after drying.

WEST PEROX is ideal for effective and safe cleaning and disinfection of agricultural and horticultural buildings such as hog barns, hatcheries, poultry houses, animal shelters, and agricultural equipment.

WEST PEROX is accepted by Health Canada for use on farms and in livestock buildings.

DIN 02552205

FEATURES AND BENEFITS

- Contains 7.5% stabilized hydrogen peroxide
- Contains 5.76% 5th-generation quaternary ammonium
- Residual effect
- Broad-spectrum activity
- Extremely effective and fast-acting
- Low odor
- Contains only biodegradable ingredients
- Compliant with the volatile organic compound (VOC) concentration limits regulations, SOR/2021-268

DIRECTION FOR USE

Equipment to be cleaned

Agricultural and horticultural buildings and equipment: trucks, ceilings, walls, floors, equipment.

Technique

Remove heavy dirt deposits from surfaces. Apply with a cloth, mop, sponge, or trigger sprayer. Spray at a distance of 15 to 20 cm from the surface, ensuring it is thoroughly wet. Keep the treated surface wet for 10 minutes. Scrub with a brush, sponge, or cloth. Avoid inhaling spray fumes. Wipe with a clean cloth and allow to air dry.

Concentration

16 mL / litre of water (1:64)

Dwell time/Operation time

Minimum 10 minutes. Do not let animals back in until the treatment has been absorbed and dried.

Temperature

Between 4°C and 40°C (39 and 105°F).

Rinsing

Rinse with potable water treated areas such as racks, troughs, feed bunks, feeders, fountains and drinkers and all equipment that comes in contact with food.

TESTED SUCCESSFULLY IN INDEPENDENT LABORATORY AGAINST:

Porcine Epidemic Diarrhea Virus (PED)	Pandemic 2009 H1N1 (swine flu) (H1N1)
Porcine Respiratory and Reproductive Syndrome Virus (PRRS)	Pseudomonas aeruginosa
Avian Influenza Virus Type A (H5N1)	Staphylococcus aureus
Infectious Laryngotracheitis Virus (25ml/L 1:40)	Salmonella enterica
Poliovirus (25ml/L 1:40)	Escherichia coli (E. coli)

WEST PEROX HIGH-EFFICIENCY DISINFECTANT/VIRUCIDE

PHYSICAL PROPERTIES

Appearance	Clear, colorless liquid
Odour	Faint peroxide
Specific gravity @ 20°C	1.02
Viscosity	< 10 cps @ 22°C
pH	1.8
Flash point (TCC)	None
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	100°C
Freezing point	Not available
Foaming tendency	High
Concentration monitoring techniques	Titration
Rinsing	Excellent

INCOMPATIBILITY

Strong oxidizers, caustics

WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

AVAILABLE SIZES

		
20L	205L	1000L

IMPORTANT

Before using **WEST PEROX**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

FIRST AID MEASURES

Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Skin contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Inhalation

Not applicable.

Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.

PERSONAL PROTECTION

WHMIS
