

# WESTQUAT ACID RINSE-FREE ACID SANITIZER

**WESTQUAT ACID** is a quaternary ammonium and and phosphoric acid based sanitizer, intended for processing and handling food industry, that requires no rinse after application.

WESTQUAT ACID can be left on surfaces where even after drying, it leaves a thin film which retains all its effectiveness. This contributes to keep the surface sterile until the next use of the equipment.

# FEATURES AND BENEFITS

- Odorless and colorless
- Chemically stable
- Non-volatile
- · Product with acidic pH
- · Very effective on a very wide variety of microorganisms including bacteria, yeasts and molds
- Does not require rinsing when used as recommended

# **DIRECTION FOR USE**

After cleaning and rinsing the surfaces, cover them with a solution containing 25 ml of WESTQUAT ACID per 10 liters of water.

This corresponds to a concentration of 200 ppm of active ingredients. Leave in for 10 to 15 minutes before reusing the production equipment.

WESTQUAT ACID can be used at concentrations up to 5 times higher to achieve a more powerful sanitizing effect or more effective descaling. It will then be necessary to rinse equipment thoroughly with potable water before reuse.

# **INCOMPATIBILITY**

Bases, organic materials, light metals, bleach

# **WAREHOUSING PRECAUTIONS**

Keep containers tightly closed in a dry, cool and well-ventilated place

# **AVAILABLE SIZES**

2 X 4L 20L

# **IMPORTANT**

Before using **WESTQUAT ACID**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

# FIRST AID MEASURES

# Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

#### Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

#### Inhalation

Remove person to fresh air and keep at rest in a position comfortable for breathing Immediately call a POISON CENTER or doctor/physician.

#### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.
