

## WESTQUAT ACID

### RINSE-FREE ACID SANITIZER

**WESTQUAT ACID** is a quaternary ammonium and phosphoric acid based sanitizer, intended for processing and handling food industry, that requires no rinse after application.

**WESTQUAT ACID** can be left on surfaces where even after drying, it leaves a thin film which retains all its effectiveness. This contributes to keep the surface sterile until the next use of the equipment.

### FEATURES AND BENEFITS

- Odorless and colorless
- Chemically stable
- Non-volatile
- Product with acidic pH
- Very effective on a very wide variety of microorganisms including bacteria, yeasts and molds
- Does not require rinsing when used as recommended

### DIRECTION FOR USE

#### Techniques

After cleaning and rinsing the surfaces, cover them with a solution containing 25 ml of **WESTQUAT ACID** per 10 liters of water. This corresponds to a concentration of 200 ppm of active ingredients. Leave in for 10 to 15 minutes before reusing the production equipment.

**WESTQUAT ACID** can be used at concentrations up to 5 times higher to achieve a more powerful sanitizing effect or more effective descaling. It will then be necessary to rinse equipment thoroughly with potable water before reuse.

# WESTQUAT ACID RINSE-FREE ACID SANITIZER

## PHYSICAL PROPERTIES

Appearance	Clear, almost colorless liquid
Odour	Faint detergent
Specific gravity @ 20°C	1.15
Viscosity	<10 cps
pH	<1
Flash point (TCC)	None
Water solubility	Complete
Auto ignition temperature	None
Chlorine	None
Boiling point	100°C
Freezing point	Not available
Foaming tendency	Moderate
Concentration monitoring techniques	Refractive index, titration
Rinsing	Excellent

## INCOMPATIBILITY

Bases, organic materials, light metals, bleach

## WAREHOUSING PRECAUTIONS

Keep containers tightly closed in a dry, cool and well-ventilated place

## AVAILABLE SIZES

			
2 X 4L	20L		

## IMPORTANT

Before using **WESTQUAT ACID**, always be sure to read and follow precautions and directions for use appearing on the product's container label, and on the safety data sheet (S.D.S).

## FIRST AID MEASURES

### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

### Skin contact

Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

### Inhalation

Remove person to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

### Ingestion

Do not induce vomiting. Drink 1 or 2 glasses of water. Call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person.
